

Packaged Solution to Lift Your Existing ERP System to SAP S/4HANA®

S/4Move Xperience: Your Proof of Concept to the Next Generation Business Suite

System Conversion from Your Existing SAP Business Suite

The system conversion is a popular transition path to convert your existing ERP system to SAP S/4 HANA. itelligence has already supported many system conversion projects since SAP announced the end of SAP ECC maintenance by 2025. If you currently have an ERP 6.0, EHPxx, Any DB or SAP HANA DB in place, it is the natural move forward to migrate your system to SAP S/4HANA.

A Packaged Solution for Your PoC

Based on our experience we developed a solution which enables you to convert your system in the most efficient and modern way. The S/4Move Xperience PoC makes it possible to take an exact 1:1 move from your hosted or onPrem ERP system to SAP S/4HANA on AWS. Target is to provide a S/4HANA system based on your original data, but with minimum conversion effort. You'll get all basic functionality for test purposes and to understand the procedure and efforts.

Your Advantages

- S/4Move Xperience Proof of Concept Project time of 10 to 12 weeks only
- Most activities done from remote
- Conversion based on Standardized Factory approach
- All minimum required pre- and post-conversion activities are included

- Usage of up-to-date SAP tools (Maintenance Planner, SUM, DMO, SAP Readiness Check)
- Additional itelligence accelerator toolkit
- Guided test after technical conversion included

S/4Move Xperience – Services

- OSS notes installation, required for conversion
- CVI (Customer Vendor Integration) basic option – no redesign for Business Partner Model
- New GL migration through system conversion tools (classic GL functionality)
- SAP ECC EHP7 or higher (other EHP at additional cost)
- 1 system landscape, 1 client
- all necessary configuration for pre- and post-conversion activities
- Custom Code remediation for technical adjustment of standard processes
- 1 month testing period
- presentations of results and efforts
- all SAP HANA infrastructure included on AWS Public Cloud

Higher Volume?

Please ask for extended options. We offer additional services and upgrade packages.

20+
successfully realized
conversion projects

itelligence and AWS

itelligence AG has struck up a strategic alliance with Amazon Web Services (AWS) and supports companies with the SAP HANA® business data platform and SAP S/4HANA and SAP® C/4HANA suites. This has helped provide customers with solutions to migrate, implement, monitor, manage, and optimize workloads on Public Cloud. itelligence has also guided clients through migrating classic SAP products to the AWS Cloud for improved management and optimized performance.

Why itelligence?
