

The Efficient Way to Migrate

**MOVE YOUR EXISTING ERP
SYSTEM TO SAP S/4HANA®****System Conversion from Your Existing
SAP Business Suite**

SAP will provide mainstream maintenance for core applications of SAP Business Suite software until the end of 2027. This announcement has prompted many customers using SAP's older ERP systems to move to the new generation: SAP S/4HANA. The system conversion is proving to be a popular transition path, and NTT DATA Business Solutions has supported many of these projects. It is the natural choice if you are running SAP ERP 6.0, EHPxx, Any DB, or SAP HANA® DB.

A Packaged Solution for Your PoC

Based on our experience, we developed a solution which enables you to convert your system in the most efficient and modern way. The SAP S/4HANA Conversion proof of concept (PoC) makes it possible to make a fast and easy move from your hosted or on-premise ERP system to SAP S/4HANA on a public cloud. The target is to provide an SAP S/4HANA system based on your original data, but with minimum conversion effort. You'll get all basic functionality for test purposes and to understand the procedure and resources required. You will also learn everything about SAP S/4HANA in preparation for further productive use.

Your Benefits

- SAP S/4HANA Conversion PoC project time of 10 to 12 weeks only
- No need for any platform preparation
- Fast and easy system transition to public cloud of your choice
- Most activities performed remotely
- Conversion based on standardized factory approach
- All minimum required pre- and post-conversion activities are included
- Usage of up-to-date SAP tools (Maintenance Planner, SUM, DMO, SAP Readiness Check)
- Additional NTT DATA Business Solutions accelerator toolkit for faster data migration and code analysis
- Guided test included after technical conversion

SAP S/4HANA Conversion – Services

- Preparation workshop to define project scope
- OSS notes installation, required for conversion
- CVI (customer/vendor integration) basic option
- New General Ledger (GL) migration through system conversion tools (classic GL functionality)
- SAP ECC EHP7 or higher (other EHP at additional cost)
- Custom code remediation for technical adjustment of standard processes
- Presentations of results and efforts
- All SAP HANA infrastructure included on public cloud of your choice
- System shutdown at non-office hours for cost reduction
- Full system backup on public cloud

**Higher Volume? Continuation of the PoC?**

Please ask for extended options. We offer additional services and upgrade packages.

Why Choose NTT DATA Business Solutions?

- Experienced: 45+ successfully realized conversion projects and Center of Expertise for SAP S/4HANA conversions
- Affordable: Fixed price offering through packaged approach and low impact on your internal resources
- Fast: Short project runtime
- Reliable: 200+ skilled conversion experts
- Predictable: Proven runtime experience, based on conversion questionnaire and SAP Readiness Check
- Non-disruptive: Experience SAP S/4HANA within your familiar environment
- Competent: Gain valuable project experience for your SAP S/4HANA conversion
- Future proof: Experience the benefits of the SAP digital core right now
- Professional: Conversion activities are supported by project management with a set of templates, project plan, activity plan, communication matrix, and RACI matrix

SAP S/4HANA Conversion PoC

Scope

One system conversion
One client
One-month testing period

Public Cloud Platform

We determine your perfect platform for this PoC. Benefit from our partnerships with various public cloud providers.

Project Duration

10 to 12 weeks

10-12 weeks
for your
SAP S/4HANA
PoC
