## Tax compliance achieved by lochpe-Maxion

### Introduction

lochpe-Maxion is a global company, leader in the production of automotive wheels and one of the main producers of automotive structural components in Americas.

It is composed of 32 manufacturing units, located in 14 countries and with about 17,000 employees, serving customers around the world complying with the deadlines, quality standards and competitiveness required by them.

It is a company with a high level of technical knowledge that constantly seeks to provide innovative solutions in the areas in which it operates, using global macro-trends to drive the development of new products and new technologies independently or in cooperation with strategic partners..

### Project Overview

lochpe-Maxion identified the opportunity to standardize the processes, concepts, and tax activities among the manufacturing units in Brazil, as well as to make a real-time connection with accounting, so the company could capture the accounting movements and ensure security and accuracy in the information which is the source for tax analyses.

### Project Details

Originally, the project was started with a simpler scope and sought to meet what was essential to the business. However, lochpe-Maxion then realized that process improvement and evolution was an innovative factor that would bring business expansion.

The company, which was in the process of implementing SAP S/4HANA, engaged NTT DATA specialists to implement the GUEPARDO Tax for TDF. With this, the company unified the information in a single database and strengthened its tax compliance.

### Project Evaluation

The NTT DATA team, through the implementation of GUEPARDO Tax for TDF, has transformed the fiscal area of lochpe-Maxion. The project delivered intelligence in the operations and strengthened the company's tax compliance.

lochpe-Maxion optimized its obligations, unified the information in a single database, parameterized its accounting calculations and now has more structured internal processes. An incredible project thanks to a successful partnership!
