

AGTHIA INCREASES HR PROCESSES EFFICIENCY WITH SAP SUCCESSFACTORS

Challenges

- Reduce cost of operations by using standardized processes delivered by SAP Best Practices
- Manage multiple geographies, divisions, subsidiaries, and ledgers with global and country-specific content
- Strategic and operational control over end-to-end performance of all processes

Solutions

- SAP SuccessFactors Employee Central
- SAP SuccessFactors Performance & Goal Management
- SAP SuccessFactors Succession & Development Management
- SAP SuccessFactors Advanced Jam

Benefits

- Personnel data has been unified under one platform and updated within an integrated flow process. Payroll activities are now run on this system.
- With SAP Portal, data input which was previously done on separate and inefficient systems, are now unified. Employees are easily included in this process.
- Operational effectiveness through the adoption of proven business processes in finance, procurement, payroll/HR and Project management
