How to Consume the Result?

- SAP Digital Boardroom.
  SAP Digital Boardroom invites leaders to interact with insights and simulate the impact of the decisions on the company in real-time. The unique and engaging user experience works with your SAP Analytics Cloud subscription to help executives steer with a 360 degree view of the company.

- SAP Analytics Catalog
  Introduced in 2020, the SAP Analytics Catalog serves as a repository of published reports for anyone in an organization to access. As reports are created and published in SAP Analytics Cloud, they are automatically added to the SAP Analytics Catalog.

- SAP Mobile Experience
  With the SAP Analytics Cloud mobile app for iOS and Android, you can access your analytics on the fly with just your iPhone, iPad or Android device. This means that you will always have the most recent and relevant information about your business at your fingertips.
